DETAILED ACTION

Claim Objections

1. Claims 4-10 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims 4-10 have not been further treated on the merits.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Regarding claim 1, line 6, the phrase "etc." renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "etc."), thereby rendering the scope of the claim(s) unascertainable.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. **Claims 1-3** are rejected under 35 U.S.C. 102(b) as being anticipated by Scherling (US 290,803).

For claim 1, Scherling discloses a snaffle bit consisting of a mouthpiece A, which can be placed between the upper and lower jaws and extends crosswise through the mouth, the mouthpiece comprising, at each end, a through-opening (the opening in fig. 1 where the rings go through), each opening carrying a ring (not labeled with a reference number but is clearly shown in the figures), the mouthpiece is designed with the shape of an outward-curved or outward-angled bow (as shown in fig. 2).

For claim 2, Scherling further discloses the bow shape extends across the tongue and the lower jaw.

For claim 3, Scherling further discloses the bow shape of the mouthpiece is located on a plane extending approximately perpendicular to the through-openings.

6. The following prior arts are made of record to provide the best available relevant examples of a snaffle bit: 4005564, 976058, 657762, 4587797, 3623294, 6202393, 584582, 443533 all teach a snaffle bit with a curved or angled mouthpiece.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Son T. Nguyen whose telephone number is (703) 305-0765. The examiner can normally be reached on Monday - Friday from 9:00 a.m. to 5:00 p.m. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Peter Poon, can be reached at (703) 308-2574. Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-1113.
